

MATT OVERTON
Associate Director -
Architect

Matt was named Associate Director in 2017 after the completion of several major broadcast and media projects.

Graduating from the University of Technology, Sydney in 2001, Matt has also worked on a range of large scale commercial and residential projects including office developments, apartments, aged care and student accommodation.

Matt has a keen interest in design, technology and its application and effects on the built environment, which compliments the often technical nature of the office's work.
